

Agenda

Fourth International Network Meeting Standardisation Forum

Copenhagen – April 18-19, 2010

Day one – April 18

12:00 – Welcome – latest news from the different National Standardisation Boards (5-10 minutes each country)

13:00 – Lunch

14:00 – Ipv6 (Bart)

- What are we each doing about Ipv6?
- How can we help each other?

14:45 – Open APIs (Adam)

- How do we define an open API?
- Should we promote the use of open APIs – and how?

15:30 – Coffee Break

15:45 – Legislation and mandatory standards (Tommy)

- How do we handle mandatory standards (selection, information, enforcement etc.)?
- Could and should we legislate about mandatory standards?
- What possibilities are there to avoid using them (“comply or explain” etc.)?

16:30 – Coffee Break

16:45 – Authentication and authorisation (Adam)

16:45 – National profiles of standards such as SAML

17:15 – Security levels, presentation of the Dutch model

17:40 – Discussion

18:00 - End

Dinner

Day two – April 19

09:00 – Interoperability portals (Peter)

09:00 – Interoperability portal – Sweden

09:15 – Interoperability portal – Denmark

09:30 – Similar initiatives in other countries?

10:00 – Discussion

10:30 – Coffe break

10:45 - International standardisation/interoperability (Joris)

How can we optimise our efforts in groups like:

- Programmes like ISA and the CIP pilots (in Europe)
- De jure organisations: ISO, UN/CEFACT, IETF, ITU, CEN/CENELEC
- Fora like W3C, OASIS, OGC

12:00 – Selection of provisions (The Netherlands)

- Presentation of The Dutch process and criteria for selecting provisions
- What are others doing on this?

12:45 – Wrap up/Debrief

13:00 – Lunch

14:00 – End
